About Me

Passionate front-end developer skilled in HTML, CSS, JavaScript, and React.js, with a strong focus on creating responsive, user-friendly web designs. Eager to bring fresh ideas and technical expertise to a dynamic team.

Skills

- Programming Languages: JavaScript (Basic, ES, Advanced)
- Web Development: HTML5, CSS3, React.js
- Frameworks and Libraries: Tailwind CSS, Bootstrap
- State Management: Context API, Redux
- Tools and Platforms: Vite, Git, GitHub
- API Integration: Fetch API, RapidAPI
- Responsive Design: Mobile-first and cross-browser compatibility

Projects

Google Keep Clone

Highlighting this project shows your ability to replicate complex, popular applications. Mention any specific front-end skills you used, like React or JavaScript, and note any unique features you added

Cryptocurrency Tracker

Created a responsive cryptocurrency tracker using React, Context API, and Tailwind CSS. Integrated a third-party API to display real-time prices and market trends, with efficient state management and a modern, user-friendly interface

Recipe Website (Find Meal for Your Ingredients)

This project showcases your creativity and user-focused approach. Highlight how you used HTML, CSS, responsive design techniques, and JavaScript functions (like arrow functions and map) to provide a practical tool for users

Real-Time Chat Application

Developed a real-time chat application using React and Tailwind CSS. Implemented features like instant messaging, dynamic updates, and user-friendly navigation. Styled the interface with Tailwind CSS for a modern and responsive design

Interest

Adapting New Technologies

Continuous Learning and Development
